October Workshop WILD BY DESIGN

Where wildlife meets Diana Andersen's stylish treatment Monday 2 October 7.30pm

A designer by profession, Diana Andersen is a global award-winning photographer who combines her skills and passions to portray the animal world in classic images.

The WA Camera Club is privileged to have Diana visit us to share her beautiful work and pass on her guidance about achieving outstanding compositions. You are sure to come away with lots of tips on the importance of good design in photography.

It's a night to admire and a night to learn from one of the most accomplished photographers in Western Australia.
