June Workshop

Join our Feedback Session

Here's a rare opportunity to get one-on-one feedback from a team of mentoring members.

Bring along two of your preferred images - on a laptop, tablet or printed - and join a group evaluation of your work.

The committee has assembled a group of accomplished members with records of photographic competition success, exhibition exposure, publishing credits and, in most cases, judging experience and academic knowledge.

Each of these people will run 15-20 minutes feedback sessions clustered around the venue with a handful of participants who will rotate throughout the evening.

The idea is to conduct a feedback session similar to the mentoring programs run by the WA Photographic Salon in the past two years.

This is a gentle and personalised way of receiving constructive feedback and suggestions for improvement in your selected images.
