September Workshop

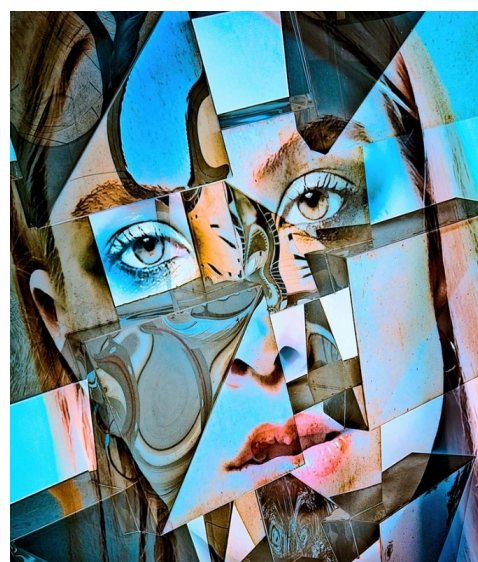

Exploring the three Ms

Curves in White by Steve Crossley

Quayside Dreams by Richard Goodwin

Femme Fatale by Ron Dullird

Monday 4 September 7.30pm

In this monthly workshop we're taking a look at our members' tips and tricks for three popular photographic techniques and styles of image-making:

- Minimalism
- Multiple Exposure
- Movement (as in Intentional Camera Movement)

You'll hear from colleagues who have enjoyed success with these types of treatment over the years. It's a chance to share your experiences too in a quest for better art photography.
